

Pine CLEAN

CLEANER & DEODORANT

with real Pine Oil

CONCENTRATED

Product # 404

DESCRIPTION

Pine Clean is an all purpose concentrate for cleaning and deodorizing that can be used with other soap cleaners. Cleans and deodorizes in one single operation. Pine Clean readily mixes with water to form a snowy white emulsion. Its powerful solvent and penetrating action enables it to clean more effectively than other pine cleaners. Contains real pine oil with natural pine fragrance. You can smell the difference.

Pine Clean is more concentrated than most brand pine cleaners in the market: it makes 10 times more product and it is 5 times more powerful.

BENEFITS

- * CLEANS AND DEODORIZES in one single step.
- * ELIMINATES malodors fast.
- * LEAVES a pleasant, natural fresh smell of pine.
- * ECONOMICAL power concentrate.
- * EASY TO USE and no-rinsing required for most applications.
- * BIODEGRADABLE

USAGE

Recommended for household, commercial, institutional and industrial use to clean and deodorize any surface which is not harmed by water. For use in homes, hotels, motels, schools, office buildings, stables, kennels. Perfect for kitchens, bathrooms, toilet bowls and restrooms, floors, counters, Use a small amount in water to clean most washable surfaces. Use under any conditions you usually use water based cleaners.

DIRECTIONS

General Deodorizing. Remove all loose dirt from surfaces to be deodorized then clean all surfaces with a solution of 2 parts deodorant to 60 parts of water. Clean as usual.

Kennels, Stables, Garbage Cans. Clean and deodorize with a solution of 4 ounces of Pine Clean to 1 gallon of water. Clean as usual. If more fragrance is desired, use more product. For heavy duty jobs, it may be necessary to rinse loose dirt with a new solution.

To clean and deodorize floors, walls, etc. Add 4 ounces Pine Clean to each gallon of mopping or cleaning solution. Clean as usual. No rinsing necessary. Not recommended for wood floors.

Toilets, Bowls, Urinals. Clean and deodorize using a solution of 6 ounces of deodorant to one gallon of water.

For extra tough jobs, use full strength and rinse immediately.
