**ROOM DEODORIZER  
AIR FRESHENER  
MALODOR ELIMINATOR  
BIODEGRADABLE**

**Product # 415**

## DESCRIPTION

Piña Colada Room Deodorizer gives you maximum performance for cleaning and deodorization. Removes offensive odors anywhere a fresh smelling, clean surface and a great first impression are of prime importance. It is formulated as a concentrate, completely water soluble and may be added to water for cleaning.

May be sprayed, added to carpet shampoo solutions, laundry, mop bucket water, or toilet bowl to keep the whole room smelling fresh and clean. No need to worry about septic tanks or runoff, this product is made from 100% naturally organic scents and 100% biodegradable cleaning agents.

## USAGE

Restrooms, public places, factories, trucks, freight cars, air conditioning systems, gyms, locker rooms, closets, basements, bathrooms, pantries, refrigerators, wick deodorizing devices.

## DIRECTIONS

While using this deodorant by spray method, make a fine spray and direct the mist upwards. Spray may also be concentrated directly on affected areas.

**FOR GENERAL DEODORIZATION:** Use dilution 8 ounces per gallon of water. Spray or mop this solution on walls, floors, etc.

**FOR LAVATORY USE AROUND TOILET BOWLS AND URINALS:** Use dilution 12 ounces per gallon of water. Spray or swab bowl water Spray or swab urinals including base and floor around fixtures. Allow the solution to remain in contact with surface as long as possible.

**DEODORIZING IN THEATERS, HALLS, AUDITORIUMS AND OTHER PUBLIC PLACES:** Spray dilution 16 ounces per gallon of water. In affected areas with strong odors, cover area liberally with dilution 24 ounces per gallon of water.

**INDUSTRIAL, DEODORIZATION SUCH AS FISHERIES, HOLDS OF SHIPS, STORAGE BINS, TRUCKS, PLANES, FREIGHT CARS, FACTORY EQUIPMENT, ETC.:** Spray air in affected area with dilution 16 ounces per gallon of water. Mop or swab walls and floors.

**FOR DEODORIZATION IN AIR CONDITIONING SYSTEMS:** If system is equipped with a water pan or air filter over which the air washes, use dilution 24 ounces per gallon of water. If no water pan or air filter is available, use large flat pan in front of blower, and place so that air washes over solution.

**FOR USE IN GYMS LOCKER ROOMS, SHOWER BATHS, WASH BASINS, ETC.:** Spray lockers inside and out with dilution 16 ounces per gallon of water. For elimination of perspiration odors, wash floors and walls with dilution 12 ounces per gallon of water.

**GENERAL HOUSEHOLD USES SUCH AS MUSTY CLOSETS, BASEMENTS, BATHROOMS, PANTRIES, REFRIGERATORS, STORAGE CLOSETS, LOCKERS, SMOKE, TOBACCO ODORS, COOKING ODORS:** Use dilution 12-16 ounces per gallon, depending upon intensity of odor. Spray affected area. To eliminate odors from cooking vessels, wash vessels with dilution 16 ounces per gallon. Floors and walls may be mopped or swabbed with dilution 8-12 ounces per gallon.

**FOR USE IN WICK DEODORIZING DEVICES:** This material can also be used in numerous wick devices for general deodorizing. Fill the bottle with dilution 16 ounces per gallon.

**LAUNDRY:** Add a ¼ cup to freshen the whole load. Test fabrics in an inconspicuous area prior to overall use, to determine color fastness.

Keep from freezing. Do not use in food service areas. Non-Toxic when used in recommended dilutions. Not recommended for painted or varnished surfaces.
